- **Small Groups:** We keep a ratio of 1-2 therapists per 2-3 students so that your child receives specialist intervention. We select students who will complement each other's learning styles.
- **Safe space:** We provide a supportive environment for children who have trouble interacting with their peers.
- **Self-esteem:** Children are provided opportunities to experience success in a small group setting. This is extremely valuable to a child's self-esteem, which would allow them to feel more confident outside of the holiday programme.
