Math Visual Awareness

10 Winstedt Road, Block A #02-01, SINGAPORE 227977

Maths can be creative! Art can be analytical! Both can inspire our imagination.

$$\frac{a}{b} \times \frac{c}{d} = \frac{a \times c}{b \times d}$$

Bringing the tailored programme for your child to be able to distinguish between 2D and 3D, identify patterns, and see math concepts in everyday life.

WINTER IMMERSION PROGRAMME

Who can participate?

Students
- between ages of 9 and 11
- Who are having difficulties in math concepts even with regular tuition

✓ Group Size: 5

✓ NOVEMBER - DECEMBER - JANUARY

✓ Fees: $600* for 6 sessions (group)
*Different fees for paired sessions

✓ enquiries@totalcommunication.com.sg
What is Math Visual Awareness?

It is a multidisciplinary evidence-based programme that uses art experience to facilitate learning of fundamental mathematical concepts and visual awareness.

What would you Learn?

Bringing mathematical concepts through various forms of the arts.

This includes visual art, music and rhythm, baking and cooking, and other hands-on activities.

1. Symmetry: transformations
2. Measurements: length, weight, capacity
3. Multiplication
4. Fractions, decimals, percentages
5. Ratios
6. Part-whole concept
7. Visual problem solving
8. Attention to detail

How does our programme complement the school curriculum?

✓ It provides a distinct way of approaching Math for students with difficulties grasping fundamental mathematical concepts.

✓ Usage of different modalities, including the arts, engages the right brain and adds a sensory dimension to Math solving skills.

✓ Art is known to evoke emotion; integrating Math and Visual Arts can encourage students to be more open-minded about Math concepts, freedom to problem solve, draw conclusions and try new ideas.
